Study Point Exercise-7

October 28th. 2016

You can earn a maximum of **5** points for these exercises as outlined below:

- Problem-1: 1 point → Exercise: *HandlingPasswordsInTheSeed.pdf*
- Problem-2: 1 point →***exam-preparation_Angular2_FiltersDirectivesFactories.pdf***
- Problem-3: 1 point → All exercises from *FilterDirectivesFactoriesEx.pdf*
- Problem-4: 1 point → ***exam-preparation_reasableControlsAngular_Test.pdf***
- Problem-5: 1 point → ***exam-preparation_structuringApplications.pdf***

If you hand in via mail you can get the additional "attendance point" if your score is **four** or above and you have completed exercise-1. As usual, if it's not, you should probably have attended the class to get help ;-)

When to hand in

If you hand in via mail send a mail as described below no later than Friday, October 28th. 15.00 (you cannot assume, that your code will be evaluated if you hand-in after this deadline)

If you attend the class, you can demo your solution up until **15.45**

These deadlines are hard. The tutors are paid until 16.00 and are **not** expected to continue after that

How to hand in:

Either demonstrate what you did in the class, or send a mail to iwantstudypoints@gmail.com including the following:

A CLEAR description of how to verify and test the code handed in. This description must also explain which part of the exercises that are implemented.

Topic: Study Point Exercise-7
